	Less bank charges	146.05
	BALANCE IN ACCOUNT	\$304 569.72

Read the Red August 2015

The gross amount collected for 'Coin for a Cord Day' this past year was \$115 124.27 (with quite a few extra thousands coming in after 30th June), making the total raised for our project \$2 159 869.53.

There have been a number of applications for a grant from the researchers and hopefully two grants will be presented at the Conference Gala Dinner. How proud you must feel, and heartily deserved. The benefits to research of cord blood transplants are huge and the progress shown in this field has been partly attributed to our contributions. Please let me have a copy of any articles or photos relating to our project as soon as possible as I should like to show them at the conference. Time permitting they can be mailed or emailed directly to me.

Congratulations to each member for the dedication shown to our project this past year. The wonderful addition of our 'Gift of friendship' rose added another challenge to your 'selling' opportunities and the response was outstanding. Keep pressing for more sales as the timeframe for orders does not finish until the end of August. I am sure you will all appreciate the effort extended by Treloar Roses on our behalf. Advertising, with Inner Wheel Australia's name to the fore in the magazines, featured in Gardening Australia, Australian Country and Treloars' own catalogue, as well as the Melbourne Flower Show. Each of these magazines is distributed Australia wide and the cost of this advertising would be many thousands of dollars. This cost was covered totally by Treloar Roses. The promotion of our organisation was enormous and is very much appreciated.

Barbara Howells, Hilary Gardner and Jan Keevers have left our happy band, and will be sadly missed. A77's Jan Keevers has been District Coordinator since the beginning of the project and has done an outstanding job. A70's Hilary Gardner has kept coming back in to help and that is very much appreciated and A50's Barbara Howells has done a great job in the last few years. My sincere thanks to all of them for being so committed and enthusiastic about our project. A warm welcome is extended to Elizabeth Russ (A50), Lyn Green (A70) and Jenny Stone (A77). We are a dedicated team of ladies, leading our members in the effort of making our National Project a success. It gives us as members a reason to unite our efforts in one huge cause and promote our organisation to our communities.

*Anne McGill,
National Coordinator,
Cord Blood Research Project*

'Gift of Friendship'
