Welcome to Tropical North Queensland

Tropical climate - no coats, jumpers or umbrella's required. Exotic tropical fruit in abundance and of course tropical cocktails! A morning walk along the boardwalk at sunrise is a great way to start the day. Our CBD is compact and easy to walk around, our major shopping centre Cairns Central anchored by Myer is four blocks away and our new aquarium, the only aquarium in the world dedicated exclusively to the habitats and species of tropical North Queensland, is only three blocks from the hotel - a great place for lunch.

Great news for Cairns

Submarine Experience Launched on Great Barrier Reef

The world's first ride share submarine has been launched in a landmark partnership between Tourism and Events Queensland and Uber which will showcase the Great Barrier Reef like never before.

The world's eyes will be on the spectacular Agincourt Reef when 'scUber' travels to Tropical North Queensland and becomes available for visitors to book the once-in-a-lifetime experience through the Uber app from 9 – 18 June 2019.

Tourism Industry Development Minister Kate Jones said the launch of scUber on Heron Island would give tourists a chance to experience the Great Barrier Reef by submarine for the first time.

"The Great Barrier Reef is our greatest tourism asset. This will give visitors a completely new way to experience this great natural wonder," she said.

“During the exclusive four-week promotion, Uber riders will have the chance to request one of the limited rides available in the three-person manned submersible and experience what the future of underwater travel could hold.”

“Their promotion is about getting the message out to the world that the Great Barrier Reef is one of the most beautiful places on earth to visit.”
