CHURCHILL ISLAND

Off to historic Churchill Island for morning tea.

The historical buildings and the remnants of the historical gardens are a drawcard for many visitors each year. First established in 1801 as the site of the first European garden in Victoria, Churchill Island has been continuously farmed since the 1850's. A substantial home and outbuildings were established in 1872.

For the more adventurous, there are a number of designated walks around the 57 hectare island.

The tour will return to Cowes for lunch of your choice and a free afternoon.

Cost: \$40.00
