

## **The Inner Wheel Club of Moe**

The Inner Wheel Club of Moe have been supporting "The Wear House"- a community project supporting vulnerable patients at Latrobe Regional Health in Gippsland, Victoria by making and supplying toiletry packs for a number of years now.

They were recently recognised and featured on the Latrobe Regional Health FaceBook site.

### ***"Latrobe Regional Health***

*In a perfect world you'd be admitted to hospital in a planned manner with a small bag of clothing and personal belongings to help you during your admission.*

*Unfortunately, it doesn't always work that way and that's where The Wear House comes in.*

*Established with community support The Wear House is our clothing facility to help vulnerable patients in our care.*

*Patients who present to LRH without a change of clothes or toiletries are provided with the basics to get them through their stay or until family or friends are able to support them.*

*These patients may have experienced physical or emotional trauma, a mental health episode or an emergency situation.*

*Since opening in August 2022 we have supported more than 800 patients, that's around two each day!*

*A big thanks to the many individuals, businesses and wonderful community groups who have supported The Wear House, including the ladies from the Inner Wheel Club of Moe.*

*Here you can see some of the group packing toiletry packs to be shared with other community members who may need one.  ”*
